

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

TOMATOES – SLICING/SALAD

Aunt Ruby's German Green HL, OP, Our Favorite

Green fruits blush yellow with a bit of pink on the blossom end when ripe. Flavor is sweet and tart. Good for sandwiches. Aunt Ruby's also makes a good base for salsa verde. Ruby

Arnold got the seed from her grandfather who brought it from Germany.

Black Krim HL, OP, Our Favorite

One of the ugliest, tastiest tomatoes around. Prone to catfacing and the shoulders always crack. The dark, reddish purple fruits have green shoulders and are a deep dark red

inside. Very Juicy. This tomato comes from Krymsk on the Black Sea in Russia. Polly's favorite.

Black Pineapple HL, OP, Our Favorite

Jay was first attracted to this tomato in a seed catalog because it had the word "black" in its name. As you can see from the picture, there is every color but black: more like green-yellow-red. But

the flavor is as complex as the color! Uniquely sweet and delicious. Jenn's favorite!

Black Prince Container, HL, OP

Originally from Siberia, this tomato has gained in popularity over the last several years. These deep garnet round, 2-inch (2-3 oz.) tomatoes are full of juice and incredibly rich fruity

flavors. The small fruits contain deep rich colors on the inside. Perfect for patio gardens. Less prone to cracking than Black Krim.

(Japanese) Black Trifele HL, OP

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb Container=Good for patios/small spaces Storage=keeps well 🐝=Attracts Pollinators

Good yields of 4-6 oz. fruit with excellent, rich flavor. Harvest when shoulders are still green for best taste.

Cherokee Purple HL, OP

Originally from Tennessee, fruits are dusky brownish purple with dark green shoulders and brick-red flesh. A sweet, juicy tomato that some people claim is a bit smoky.

Chocolate Stripes NEW in 2025, OP, DR

We trialed this tomato last year and fell in love. A beautiful bronze-green and red bicolor slicing tomato developed by Wild Mountain Seeds, its vigorous plants produce copious amounts of large slicing tomatoes. Delicious sweet and earthy flavor.

Cosmonaut Volkov HL, OP, Our Favorite

This Ukrainian tomato wins taste test after taste test. Perfect blend of sweet and tart, with a rich complexity. Fruits can range from 8-12 oz and are slightly flattened with a healthy red color and

moderately green shoulders. Prone to cracking in wet conditions. Produces high yields, especially in cool conditions. An excellent "introductory" heirloom variety for beginner gardeners. Polly's favorite salad tomato.

German Johnson HL, OP

Probably from Virginia or North Carolina. This large regular-leaf plant, one of the parents of Mortgage Lifter, is known for its copious yields of pink meaty fruits, mild but with more than a touch of sweetness. They often exceed 1 lb.

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Glacier Container, HL, OP

A very early potato-leaf variety that flowers when it is only 4-inches tall then sets loads of very flavorful 2 to 3-ounce, round, red tomatoes. Good flavor. We usually start

harvesting Glacier during the second week in July. Determinate vines do well in small spaces or containers.

Golden Jubilee HL, OP

One of the best medium sized open pollinated tomatoes, Jubilee yield copious quantities of golden-yellow, sweet, mild, half-pound round fruit, especially if

staked and pruned. Introduced by Burpee in 1943.

Goldie Yellow HL, OP

Deep orange beefsteak fruits average 1 to 1½ pounds. Sweet and meaty. Catfaces easily but rarely splits. This tomato dates from the 1870's.

Green Zebra HL, OP

Developed in 1985 by tomato breeder Tom Wagner, this is an unusual and exquisite green tomato. The 2-inch round fruit ripens to a yellow-gold with dark-green zebra-like stripes. The

flesh is lime-emerald in color that has an invigorating lemon-lime flavor.

Kellogg's Breakfast HL, OP

West Virginia heirloom obtained from Darrell Kellogg of Redford, Michigan. Large orange beefsteak fruits weigh 1-2 pounds. Delicious rich

flavor with a good acid/sugar balance.

Lillian's Yellow HL, OP, Our Favorite

Lillian's is Jay's favorite as far as flavor is concerned,

like lemonade – sweet and lemony. These won't win any beauty contests, however, since they crack and split even in dry weather. It is a difficult tomato

for me to get to market, but it is well suited for the home gardener who doesn't have far to go from the garden to the kitchen.

Mountain Princess Container, HL, OP

68 days. Grown for generations in the Monongahela National Forest region of West Virginia. Fruits are 8-10 oz, orange-red and perfectly round with a mild tomato flavor.

Very productive plants bear quick and early. Works well in containers.

Mortgage Lifter HL, OP, Our Favorite

One of the first heirloom varieties we grew. A good-sized tomato that doesn't crack. Juicy, good flavor. Great for salads and sandwiches.

In the 1930's, Charlie Byles paid off his \$6,000 mortgage by selling these tomatoes.

Nepal HL, OP

A good tasting moderately early tomato. Fruits average half a pound but are not uniform in size. Good producer all season long.

Paul Robeson HL, OP

Great flavored black tomato, slightly sweet. Very little cracking and splitting. This tomato comes from Russia.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🐝=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Pink Brandywine HL, OP

Introduced in 1889, Brandywine is the tomato that was responsible for the rediscovery of heirloom tomatoes. It can be difficult to grow, with catfacing and splitting, but the flavor is worth the effort. Rich and full flavor beefsteak tomato.

Pruden's Purple HL, OP, Our Favorite

Looks and tastes like Brandywine, but Pruden's is more productive and easier to grow. This is one of first heirloom tomatoes we grew and is a dependable producer. A good heirloom for beginners.

Rose HL, OP

Very sweet, juicy, and HUGE! Makes a great breakfast tomato. Good with eggs and bacon. Also, a great choice for BLTs, gazpacho, and tomato juice.

Rose de Berne HL, OP

A delicious Swiss heirloom: dark pink with soft meaty flesh. Beautiful quality, looks, and taste. Pink, round, and uniform. Simply excellent.

Discovered in a market in Arles, France from a farmer growing several old tomato varieties. Very rich flavor, good acid and sweetness, really delicious. Small 4-to-6-ounce fruits.

Ruby Gold HL, OP

Ruby Gold produces prolific beautiful huge, red-streaked yellow fruits with marbled interior flesh, meaty with superb mild sweet flavor, smooth melting texture and not a bit of acidity. Similar to Striped German, but much bigger. Fruits average 2 to 3 pounds. Introduced by John Lewis Childs of Floral Park, NY, in 1921.

Striped German HL, OP, Our Favorite

If you are looking for a sweet tomato, look no farther. Very sweet and juicy orange/red tomato with thin skins. The streaking you see on the skin is also found inside the flesh. Skins are thin. Shoulders crack but don't split open. Our favorite for BLTs or just eating in the field.

Summer Sunrise Container, HL, OP

Each plant yields a nice quantity of medium-sized pale-yellow fruits with a pink starburst. Flavor is incredible: tart, sweet, and full. Its dwarf habit makes it great in smaller spaces, such as container or roof-top gardens.

Tang Container, OP, DR

Tasty orange slicer with high levels of beta carotene for a nutritional boost! Tang comes from the orange field tomato breeding program at the University of New Hampshire. Fruit are reddish-orange in color. Great flavor. Fruit averages 8-10 oz. This tomato shows good blight resistance in our field. Also, a good container tomato.

T.C. Jones HL, OP, BACK in 2025!

An heirloom from Kentucky that produces pale yellow 8 ounce slightly flattened fruit. Similar to Lillian's Yellow in flavor but not as intense and with much less cracking.

Valencia HL, OP

This round, smooth fruit with a brilliant orange uniform color weighs around 8-10 oz. It is a mid-season tomato that grows well in northern and cooler climates. The tomato has an excellent, full, complex tomato taste, with a great balance of acidic and sweet. It is a family heirloom from Maine.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🐝=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Yellow Brandywine HL, OP, Our Favorite

This is one of Jay's favorite tomatoes. Tastes just like a Red Brandywine with full tomato flavor but has fewer cracks.

Sungold F1 Hybrid, Our Favorite

Our most popular cherry tomato, Sungold has a rich, fruity flavor. The only hybrid tomato worth growing (Polly's opinion). They crack and split easily, especially after a heavy rain.

When we pick these tomatoes for market, the rule is that all splits must be eaten in the field. It is a rule that isn't difficult to enforce.

TOMATOES - CHERRY

Black HL, OP, Our Favorite

This is Jay's favorite heirloom cherry tomato – sweet and meaty, reminiscent of a plum. They split easily, so a lot of them get eaten in the field. The plants

themselves are not as productive as other cherry tomatoes, and the fruit's dark color makes for difficult picking, but their exceptional flavor more than makes up for it.

Matt's Wild HL, OP, DR

These small cherry tomatoes are packed with more taste than you can believe. 5/8- 3/4", deep red, round fruits have a tender, smooth texture, and loads of sweet, full

flavor. High sugar content. These plants show some resistance to late blight.

Peacevine HL, OP

So named because of the high amino acid content which has a calming effect on the body. According to Seeds of Change, this indeterminate variety had the highest Vitamin C

content among 30 varieties of cherry tomato analyzed by Rutgers University. Fruits are large for a cherry tomato and easy to pick.

Tommy Toe HL, OP

An heirloom variety from Australia. Exceptionally vigorous plants yield hundreds of large red cherry tomatoes throughout the season. Indeterminate, 70 days from transplant.

TOMATOES - PASTE

Amish HL, OP

A good flavored tomato, also makes a good sauce. Does not crack or split. This heirloom comes from Wisconsin from around 1900.

Black Icicle HL, OP

Stunning, perfectly shaped, deep purplish brown

(almost black) fruit, great for both home gardeners & chefs.

This tomato has the incredibly rich taste that is in many of the large, dark beefsteak types: sweet, rich with earthy overtones. From Ukraine.

Blue Beech HL, OP, Our Favorite

Jay's most favorite paste tomato. Sweet, meaty fruits make a rich, thick sauce that doesn't turn bitter when cooked. The seed made its way to Blue Beech Farm in Danby, VT from Italy during World War II. Seed has been difficult to get over the last 10 years, so we are saving this seed here at Four Winds Farm.

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Orange Banana HL, OP

Don't let the color fool you. This is a high acid tomato, with mild tomato flavor. The thick meaty flesh makes an interesting and good tasting colored tomato sauce. Also good for drying.

San Marzano HL, OP

For canning, paste, and spaghetti sauce, it's hard to beat San Marzano. A traditional heirloom paste tomato from the Campania region of southern Italy.

Speckled Roman HL, OP

Gorgeous 5" long fruits with jagged orange and yellow stripes. Meaty flesh with few seeds. Great tomato taste, ideal for processing and fresh eating. Very productive.

PEPPERS & EGGPLANT

HOT PEPPERS

Ancho (Poblano) HL, OP

Plant produces good yields of large 6" long medium hot peppers. Peppers turn from dark shiny green to deep red when mature. When fresh and

green, referred to as Poblano peppers and used for chilis rellenos (Mexican stuffed peppers); when ripe and dried, called Ancho peppers. From Mexico.

Czech Black HL, OP

A most beautiful vegetable. Black when immature, the 2-1/2" long conical fruits ripen to a lustrous garnet. Mild juicy flesh runs with a cherry red juice when cut. The heat

is a tad less than a jalapeño.

Fish HL, OP

Fish has distinctive green and white mottled foliage and striped fruits. They turn from white with green stripes to orange with brown stripes to red, packing considerable heat and full-bodied flavor. By 1900, Fish was extensively grown by the African-American community around Philadelphia and Baltimore. A beautiful pepper!

Hot Portugal HL, OP

Listed in the 1935 Joseph Harris catalog. Bears elongated narrow fruits, 5-8" long, 1" in diameter with the classic wrinkled hip at the stem end. Superb pepper flavor comes

through its considerable heat nicely.

Early Jalapeño HL, OP

Just 3 to 4 inches long and about 1 1/2 inches wide, these cone-shaped, thick-walled fruits are borne in great numbers on very vigorous plants.

Versatile - can be used in any recipe where moderate heat is required. They are ready to pick when dark green.

Magnum Orange Habañero HL, OP

Uniformity and productivity are top notch, producing loads of shiny scorching peppers. Plants are tall, well branched and tolerant of cool conditions, ensuring maturity in cooler

climates like the Northeast. Blisteringly hot Scotch Bonnet/Habañero type.

Shishito HL, OP

Finding these peppers in stores is difficult; growing your own is easy, inexpensive, and allows you to binge each summer on a very special treat. Flavorful, with a tinge of spicy flavor

and almost burn. Fry or roast to blister, then salt for the perfect savory snack.

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

SWEET PEPPERS

Chocolate Cake OP

A reliable producer even in a bad year. Plants produce good yields of beautiful rich chocolate brown sweet bell pepper. Excellent for salads, stuffing, or cooking.

Cubanelle OP

Plants produce good yields of 5 ½" long by 2 ½" wide sweet peppers. Peppers turn from light green, to yellow, to orange, to red when mature. One of the best frying peppers on the market.

Doe Hill Container, HL, OP

Doe Hill is a golden bell for the rest of us - sweets, thick flesh like other golden bells but much easier to grow and quicker to ripen.

Compact plants yield large quantities of globe shaped fruit. Excellent in salads, stuffed, or vegetable platters.

Jimmy Nardello HL, OP, Our Favorite

One of the easiest peppers to grow in our region, and one of the most versatile - delicious any way you prepare them: fresh in salads or crudities, fried with sausage or eggs,

dried, or just plain eating out of hand like a carrot. Brought to USA from the village of Ruoti in Italy in 1887 by Jimmy Nardello's mother.

King of the North OP

The large size, earliness and heavy yield make King of the North a variety that will give good yields of fine fruit even here in the Northeast. The plants are medium

size, branching and literally covered with fruit. The flesh is thick, mild and sweet.

Lee's Italian Sweet OP, HL

Large plants are large are loaded with long, flat, Italian type peppers. The flavor and texture are first-rate: extremely sweet when ripe, with thick bell pepper-like skin.

Seed originally from Lee Reich of New Paltz.

Peacework OP, Container

Early red bell pepper developed by a farmer-breeder partnership including Peacework Farm and Cornell University. Small plants produce six peppers each on average with medium-thick walls, good flavor and full-bodied sweetness.

EGGPLANT

Diamond HL, OP

Kent Whealy brought this elongated slightly tapered dark purple eggplant back from the Ukraine in 1993. 2' plants set 2-1/2x7" slender 12 oz. fruits in clusters. Flesh firm has pleasing texture and lacks bitter taste.

Ping Tung Long F1 Hybrid

Long Chinese eggplant named for a town in Taiwan. Great for cooks who prefer to work with uniform slices. Vigorous stress-tolerant plants start producing early for a decent overall yield. Light purple color of immature fruit darkens as it matures. Its sweetness will keep you coming back for

more.

Rosa Bianca HL, OP

A gorgeous white-and-pink blushed, Italian heirloom variety with a delicate, mild flavor, creamy consistency, and no bitterness. Considered one of the best.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🐝=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Rosita

HL, OP

Plant produces good yields of beautiful 8" long by 4" wide pinkish-lavender eggplants. The white flesh is very sweet. Excellent for gourmet dishes. A variety from Puerto Rico.

CUCURBITS

CUCUMBERS

Green Finger OP, DR

Thin skin, exceptional flavor, and a small seed cavity. Beit alphas are similar to European slicers but shorter, averaging 8-10 inches. Excellent disease resistance.

Developed by Cornell University.

Lemon

Container, HL, OP, Trellis

The 3-4" round and lemon-yellow cucumbers are tender and sweet, excellent for salads and pickling. Normal-sized vines yield heavily and for a long time. This variety starts yielding 2 weeks later than other cucumbers, but they are worth the wait. An avid climber, it grows well on trellises.

Little Leaf

Container, OP, Trellis

Blocky, medium-length fruits are good for fresh eating, they pickle well, and have a distinctive, bright emerald green color. Vines are compact, multi-branching and yield well even under stress. Half

normal-sized leaves provide easy visibility and harvesting. Plants climb well; works well in containers.

Silver Slicer OP, Trellis

A creamy-white slicer with excellent flavor and lovely smooth skin. Some tolerance to Powdery Mildew.

Marketmore 76

OP, Trellis

Marketmore 76 remains the most widely planted open-pollinated slicing cuke in the US. The 8-9" dark green fruits stay green and mild tasting even under heat stress.

National Pickle

OP, Trellis

National produces short thick cukes with blunt ends

that are perfect for pickles and delicious for slicing in salads. Cucumbers average 6" and are slightly tapered to fit nicely in a pickle jar. Skin is medium green with some striping. A heavy producer. Black spines. Developed by the National Pickle Packers Association.

WATERMELONS, MUSKMELONS, AND CANTELOPE

Dakota Rose Watermelon OP

Developed in 1980. It matures early and produces 2-3 fruits per plant. One of the sweetest open-pollinated watermelons around, it has a thin skin, few seeds and stores longer than most other varieties. A strong watermelon flavor augments its sugar rush.

Moon and Stars Watermelon HL, OP

A great watermelon, with fine flavor, introduced by

the Henderson seed company in 1926. The skin is deep green, speckled with hundreds of golden yellow stars and several half-dollar sized moons. Even the foliage has yellow 'stars'. The fruit is

red-fleshed. Melons are medium sized (~25 pounds) and slightly oblong.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🌼=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Sugar Baby Watermelon HL, OP

10-12 lbs. A summertime treat, Sugar Baby sets an abundance flavorful fruit on compact vines. Thick, near black rinds at maturity. The quality and sweetness of the flesh is good, and the smaller overall size makes fridge cooling easy.

Cocozelle Zucchini OP

Flavor is slightly nutty; milder than Costata but more flavorful than most zucchini. Evenly shaped, straight fruit with very slight ribbing over the lighter green striping. Bush plants are mostly single stemmed.

Golden Gopher Muskmelon HL, OP, Disease Resistant

Heavily ribbed fruits have deep orange flesh of incomparable eating quality. Its Honeydew parentage accounts for its high sugar content as well as its resistance to Fusarium Wilt. Developed by the University of Minnesota in the 1930s, later saved from extinction. Called "Pop Open" melons because they sometimes split open when ripe.

Hard to grow for market where Powdery Mildew is prevalent; very susceptible.

Pride of Wisconsin OP

Smooth texture and juicy sweetness make this melon one of the best! Watch carefully: large oval fruits with tender salmon-pink flesh can crack in very wet weather. Known as Queen of Colorado when first introduced in 1923.

SUMMER SQUASH & ZUCCHINI

Benning's Green Tint Summer Squash HL, OP

A very pretty, pale green scalloped squash that is tender inside and out. They are ideal when 2-3 inches in diameter, with both an excellent flavor and a nice firm texture.

Vigorous 3 to 4-foot bushes yield up to 15 fruits during the season.

Costata Romanesca Zucchini HL, OP

Distinctive Italian zucchini, prominently ribbed. Medium gray green, with pale green flecks and ribs. Big, large-leafed bush with only about half the yield of hybrids, but much better tasting; clearly better textured, nutty, and delicious, raw, or cooked.

Success Straight Summer Squash OP, DR

A major breakthrough in open pollinated summer squash. Prolific plants keep cranking right through powdery mildew season, producing smooth, uniform, and attractive fruit. First released by High Mowing Organic Seeds and the Cornell Vegetable Breeding Institute.

Yellow Crookneck Summer Squash HL, OP

Deep yellow warted fruits with bulbous shape & narrow curved necks. Best when picked young. Likely grown by Native Americans; dates to 1700 & a standard in early 19th century American seed catalogs. The 1888 Burpee catalog described it as "covered with warty excrescences" but called the flavor "excellent."

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

WINTER SQUASH AND PUMPKINS

Baby Blue Hubbard OP

For home gardeners with space limitations, this scaled-down version of Blue Hubbard was developed at the U. of New Hampshire from a 1953 cross between Blue Hubbard and Bush

Buttercup. Baby Blue's vines are much more compact and its fruits much smaller (about 4-5 lbs.).

Black Futsu HL

Japanese squash: the fruit is flattened, round and has heavy ribbing. The black fruit will turn a rich chestnut color in storage. Flesh is golden color and has the rich taste of

hazelnuts. Fruits are 3-8 lbs. each, and vines give huge yields.

Burgess Buttercup OP

Introduced in 1932 by Burgess Seed & Plant Co. of Bloomington, IL. Buttercup has set the benchmark over the years for all other small winter squash.

Flattened dark green turbans with a distinctive button on the blossom end. Typical fruits weigh 3-5 pounds. Super sweet, brilliant orange flesh with very fine eating qualities.

Burpee's Butterbush HL

Deep red-orange flesh is rich and delicious.

Space-saving, bush-type plants grow only 3 ft long. Each plant bears 4-5 butternut-shaped fruits averaging 1½ lbs. This winter squash keeps for months

and makes superb pie.

Red Kuri HL, OP

These teardrop-shaped, strikingly red-orange squash from Japan have smooth, sweet, dry, deep orange flesh. The most reliable yield even in cool, short seasons. Fruits are 3-4 lb. size.

Howden Pumpkin OP, Storage

Thick, solid flesh is perfect for pies. Uniform shape makes excellent jack-o'-lanterns. Large fruits, up to 25 lbs. each, store well.

Long Island Cheese Pumpkin HL, OP, Storage

Shaped like a large, home-made cheese wheel, this handsome squash has smooth skin and is gently ribbed. The color is similar to Butternut: tan skin with bright orange flesh. Squash average 20 lbs. each. Excellent for pies.

Spaghetti HL, OP

Ivory colored changing to pale yellow at maturity. Bake like squash or boil and fork out the flesh, topping the "spaghetti" with your favorite sauce. 3-5 lb. oblong fruit. Avg. yield: 4-5 fruits/plant.

Sweet REBA Bush Acorn OP, DR, Storage

Sweet REBA continues pouring energy into developing fruit long after most squash plants have succumbed to powdery mildew. Bush plant produces very heavy yields of 1-2 lb fruits. Great keeper. From Cornell University.

Table Queen Acorn HL, OP, Storage A

green-shelled acorn squash introduced by the Iowa Seed Company in 1913. Fruits weigh about 2-3 pounds when mature. Prolific vining type squash that will keep your root cellar full. Fantastic keeper.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🐝=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Waltham Butternut OP

This butternut was the result of years of patient refinement and selection by Bob Young of Waltham, MA. Prized for its straight necks, rich dry yellow-orange flesh, nutty flavor, and high-yielding vines.

Fruits are 3-6 pounds and exceptional keepers. One of the most popular types of baking squash.

Zeppelin Delicata HL, OP

From 1894, the lovely ivory-colored oblong 1 lb. fruits with dark green stripes have the unsurpassed sweetness that gives Delicata its good reputation. In storage the

green stripes turn a delicate orange and the cream background sometimes yellows.

GREENS, ONIONS, & MORE

Champion Collards OP

Rich, dark blue green collard with large cabbage-like leaves. Plants are non-heading, productive, and hardy.

Farao Cabbage F1 Hybrid

Sweet and tender! Leaves are thin and juicy - perfect for stir-fries and egg rolls. Medium green leaves with a rosebud wrapper will make any garden or farmers' market table look stunning. Round heads average 3-4 lbs. and hold well in

the summer heat.

Fordhook Swiss Chard OP

Broad white stems, leaves dark green and savoyed with white veins. The standard variety, introduced by Burpee in 1934.

Forellenschluss (Troutback) Lettuce HL, OP

Also known as Freckles or Trout Back, an heirloom from Arche Noah, the Austrian genetic preservation project. A gorgeous romaine with the delicate taste and texture of a butterhead, distinguished for its deep green leaves flecked with wine-red splotches.

Salad Bowl Lettuce OP

Frilly notched light green leaf lettuce stands heat fairly well for a spring lettuce.

Nautic Brussels Sprouts F-1 Hybrid, DR

Disease resistant variety for a reliable crop. Vigorous and sturdy plants with widely-spaced sprouts minimize disease and make it easier to harvest individual sprouts. Strong Resistance to Fusarium Yellows, intermediate

resistance to Black Rot.

Golden Sunset Swiss Chard HL O

Beautiful golden yellow stems contrast with bright green leaves in this stunning chard that performs well even in less than perfect weather. A beautiful addition to any garden. From the 1830s.

Happy Rich Sprouting Broccoli F-1 Hybrid

In between a heading broccoli and broccoli raab, sprouting broccoli produces copious amounts of side shoots great for stir fries or crudites.

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Lacinato Kale HL, OP, Winter Hardy

An heirloom that has been traced back to the 18th century. Very dark green wrinkled strap-like leaves appear almost black at a distance. Delicious and nutritious as well as adapted to a wide temperature range, its sweet mild flavor improves after frost.

Red Express Cabbage OP

Heads up quickly into neat and tidy little red cabbages, perfect for those who want a smaller portion. Uniform with very nice color, and much, much earlier than many other cabbage varieties.

Red Russian Kale HL, OP

Called Buda Kale by Fearing Burr in 1863. Russian traders brought this Siberian heirloom to Canada in the 19th century. Its oakleaf foliage colors after fall frosts. Red and purple leaves change to dark green when cooked. Use soon after picking.

Fiesta Broccoli F-1 Hybrid

Uniform domed bright green heads handle hot and cold weather well. Harvest main head, then allow side shoots to develop for continued harvest.

White Russian Kale HL, OP, Winter Hardy

A flat-leaf Siberian type, silvery green with white veining. Similar to Red Russian, but a few inches taller, a third more productive, with larger, more serrated leaves. Also, much harder than Red Russian, will hold into November without protection.

Winterbor Kale

F1 Hybrid, Winter Hardy
A standard Dutch-style curly green kale. The plants are tall, growing up to 2–3', with excellent yield and good cold hardiness. The ruffled blue-green leaves have an attractive curl. Vigorous plants will continue growing new leaves at the top as the lower leaves are harvested.

Walla Walla Sweet Spanish Onion HL, OP

A very sweet, very large yellow onion. A French soldier brought this heirloom from Corsica to Washington State. It has been sold in WA since 1900. Does not store. Excellent fresh summer onion.

Rossa Lunga di Tropea Onion HL, OP

A famous Italian heirloom “torpedo” onion from the town of Tropea in the Calabria region of Italy. Elongated maroon bulbs have a sweet and mild flavor. Excellent as a fresh summer onion.

Val-aux-vents Shallots OP

A new French shallot from Canadian plant breeder Richard Favreau of Val-aux-Vents Farm in the Saint-Valérien region of Québec. Golden-bronze 1¼–2" bulbs uniformly divide into triples and quadruples with a rich, buttery flavor.

Cajun Jewel Okra HL, OP

A favorite in Cajun country since the 1950s. Dwarf-type, 2½-4 ft. tall spineless plants produce an early crop of tender 1 in. diameter pods up to 8 in. long. Good flavor.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well ☼=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Balena Celeriac

F-1 Hybrid, DR, Hardy, Storage
Plant produces uniform large round crisp white celery flavored roots. Also called Rooted Celery or Celery Knob. Excellent in soups and stews and used for making vegetable juice as well as shredded

and used in salads with greens. Harvest late in summer. Stores well in crisper or root cellar.

Verde Tomatillo

HL, OP
Abundant producer of early maturing, large, flat-round green fruits. Use in salsa or Mexican cooking.

Aunt Molly's Ground Cherry

HL, Containers

Polish heirloom variety has fine flavor - very sweet with a nice hint of tartness. 1/2-3/4-inch fruit is enclosed in a papery husk; fruit drops to the ground when fully ripe. High pectin content makes for excellent pies and preserves.

HERBS & FLOWERS

FLOWERS

Florist Blue Boy Centaurea (Bachelor's Button/Cornflower)

Annual, Edible Flower, OP
Beautiful deep blue double and semi-double flowers atop upright plants. Prefers cool temperatures. Also known as cornflower, garden cornflower, and bachelor's buttons. Edible petals can be used to

decorate cakes or brighten up salads.

Brocade Mix French Marigold

Annual, OP, ☼

Abundant color on neat, compact 10" plants. Ruffled double flowers in rust, yellow, orange, red and bicolors. Attracts bees and other beneficial insects; helpful against soil nematodes.

Queen Sophia French Marigold

Annual, OP, ☼

A compact (10-12"), bushy plant with deep red-orange petals edged with golden yellow. Great for containers. Attracts many beneficial insects.

Court Jester Marigold

Annual, OP, ☼

A 20" tall plant produces bright striped blooms of burgundy and yellow. Attracts many beneficial insects.

Resina Calendula

Annual, ☼, OP

Excellent medicinal properties, used as an herbal application for inflammation and localized skin problems. Also used as an edible flower. This is the flower that Jay uses to make his Calendula Salve.

Attracts beneficial insects; self-seeds readily.

Cream of Troika Nasturtium

Annual, ☼, Edible Flower, OP

A large plant that can produce 3' long trails with edible creamy yellow blooms with a deep red center. Leaves, flowers and stems have a spicy flavor.

Empress of India Nasturtium

HL, Annual, ☼, Edible Flower, OP

Heirloom variety from 1884. Leaves, flowers, and stems edible. Dark purplish-green leaves make a perfect background for the spicy-hot brilliant crimson flowers, and contrast well with other nasturtium varieties. Very

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

tender annual. For best blossoms do not over-fertilize.

Peach Melba Nasturtium Annual, 🌱, Edible Flower, Container, OP

Creamy-yellow flowers with bright orange centers. Plants mound to about 10'; flowers are often above foliage for easy picking.

California Giant Mix Zinnia Annual, 🌱, OP

Fast growing 3-4' tall plants that produce 4-6" double, dahlia-like blooms in red, yellow, orange, lavender, maroon, violet and white.

Dahlia Flowered Mix Zinnia Annual, 🌱, OP

A mix of dwarf zinnia varieties that produce blooms all season long. Plant are 28-35" tall and produce a bright mix of salmon, pink, orange, peachy-white, white, red and purple double, dahlia-like blooms.

Scarlet Flame Zinnia Annual, 🌱, OP

Deep scarlet blooms attract butterflies and hummingbirds. Great for cut flowers, attractive and sturdy. 30-36-inch plants.

State Fair Mix Zinnia Annual, 🌱, OP

Mix of larger bloom types and multi-colors, great for cut flowers. Old-fashioned variety bears a rich array of huge showy single and double blooms on 30" plants.

Colors red, magenta, purple, orange, lavender and pink. Attracts beneficial insects and hummingbirds. Deadhead regularly to maintain flowering.

Monstrosum Mix Strawflower Annual, OP

Profuse bloomers for fresh or dried arrangements. Tall, well-branched plants produce pink, white, gold, and deep rose blooms. Good for border color and excellent for drying. Grows 30-40" tall with 2-2½" fully double flowers.

Evening Sun Sunflower Annual, OP, 🌱

Six- to eight-foot-tall branching sunflower produces numerous 3-5" blossoms with vivid colors of bronze, russet, gold, red, burgundy and many bicolor blends. Attractive to honeybees and other pollinators.

Soraya Sunflower Annual, OP, 🌱

5-6 ft branching sunflower with deep orange petals. Excellent bloom producer which may yield up to 20-25 blooms per plant.

HERBS

Genovese Basil HL, OP, High Yielding

Great for Pesto! Of all the basil to grow, Genovese is one of the best - it can yield 7 to 8 cuttings each season and makes a very flavorful pesto.

Lemon Basil HL, OP

Strong lemon flavor. Great for flavoring fish and fowl dishes. Native to Thailand and Southeast Asia and featured in those cuisines. We have used it fresh as a flavoring in muffins. Our lemon basil has also been used to flavor Zora Dora (in Beacon) ice cream.

Key: OP=Open Pollinated (will breed true) HL=Heirloom (Old-Fashioned Variety) DR=Disease Resistant Trellis=Will climb
Container=Good for patios/small spaces Storage=keeps well 🌱=Attracts Pollinators

FOUR WINDS FARM VEGETABLE AND FLOWER SEEDLINGS 2026

Sacred Basil (Tulsi) Annual, OP, HL, ☼

Native to India; used in Indian & Thai cuisine. Spicier than other basil and quicker to go to seed, but still usable when covered with purple flowers. Strengthens the immune system and increases oxygen uptake in the brain. Used in Ayurvedic medicine as a poultice on acne, ringworm, eczema, and insect bites. Stands a bit more cold than other basil. Copious pollen and nectar loved by honeybees.

Comfrey Perennial, ☼

Pale blue flowers provide nectar and habitat for bees and other beneficials. Great for borders and edges; grows well in sun or shade. Large, deep green leaves can be cut and used as mulch.

Difficult to eradicate once established – chose planting location with care.

Thai Basil HL, OP, Annual, Container

Lends the distinctly strong licorice-anise basil flavor to Thai food. An attractive 12–18" fine-leaved plant with purple stems, seed heads and flowers. Good container plant as well.

Curly Parsley OP, Winter Hardy

Standard early maturing double curled variety with rapid regrowth. The leaves are deeply cut and curled. Stems average 10 inches. Very cold hardy.

Italian Parsley OP, Winter Hardy

Classic flat leaf variety for use either fresh or dried as a garnish or seasoning. Stems hold leaves upright for easy cutting.

Gigante d'Italia Parsley OP, HL, Winter Hardy

Large leaves with strong vigor and full, sweet flavor. Upright plants can grow several feet tall!. Very cold hardy for long harvests.
